INTRODUCTION

MUCH MORE THAN BLACKBOARDS...

Since its foundation in 1932, our company has built a reputation for excellence in the manufacturing of top quality visual communication products with unequalled after-sales service. We distribute our products in Canada, the United States and in Europe.

The great diversity of our products enables us to serve a wide range of customers. Our products are used daily in schools, offices, government buildings, training centres, hospitals, hotels, restaurants and in the commercial and industrial world.

Our versatile and competent personnel adapt to our clients needs. Our sales team informs clients and helps them identify precisely which articles are best suited to their needs. Technical support is also available for architects, building contractors and designers.

We are proud to offer you the top quality standard and customized products that have forged our reputation. Each product is created and manufactured to meet our customer's individual specifications. Choosing a CBBC product ensures you of impeccable quality from a well-established and experienced company.

THE WARRANTY

The Canadian Blackboard Company Ltd offers a 12 month warranty, starting on the delivery date, against any manufacturing or installation defects on all products with the exception of economic boards and Duolox surfaces. Also, product use warranties varying from 3 months to 50 years are offered on chalkboard or marker surfaces (see page 4). To prolong the use of your Blackboard product, we provide the maintenance method specific to your board's surface. You will find it on an upper corner of your board.

surfaces

LAUZONITE

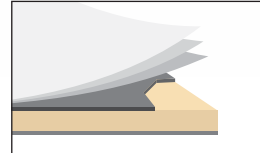

Lauzonite, a high-performance surface, is composed of a steel sheet (0.4 mm) coated with 3 layers of resin with carborundum and baked at a high temperature. Result: a durable, easy-to-clean surface that ensures full chalk lines and anti-glare visibility. 50-year (green, grey or black) or 5 year (white) warranty*

Sizes

4' X 6' 4' X 10'
4' X 8' 4' X 12'

Thickness

1/2"
1/4"
1/8"

COLOURS ▶    

LAMINITE

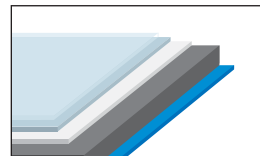

Laminated polyester film on steel sheet (0.4 mm). Erases very easily. Formability with perfect adherence of film on steel. 5-year warranty*

Sizes

4' X 6' 4' X 10'
4' X 8' 4' X 12'

Thickness

1/2"
1/4"
1/8"

COLOURS ▶  

PORCELAIN

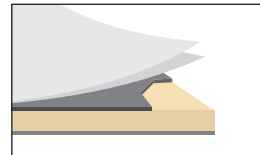

It's primary quality: hardness, making it almost impossible to scratch. This surface is composed of 2 layers of vitreous enamel baked on a steel sheet (0.4 mm) at a very high temperature. 50-year warranty*.

Sizes

4' X 6' 4' X 10' 4' X 16'
4' X 8' 4' X 12'

Thickness

1/2"
1/4"
1/8"

COLOURS ▶   

* 5' height available (white only).

DUOLOX

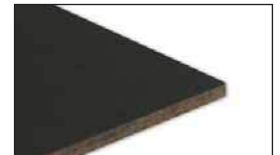

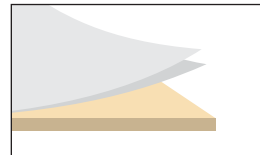

Economical surface composed of a dense fibre (Masonite) panel coated with two thin layers of paint. Caution: this surface is not intended for classroom use. For family or occasional use only. Thickness: 1/8". 3-month warranty*.

Sizes

4' X 6'
4' X 8'

Thickness

1/8"

COLOURS ▶   

* Under normal use, using the appropriate chalk or marker and applying the specific cleaning methods as indicated on the label applied to the top corner of the board. The warranty is limited to peeling and cracking of the surface. For cleaning methods, consult our web site at www.cctn.com.

NATURAL CORK

Top quality fine grained natural cork is offered in three thicknesses:

1/4

1/8

1/32

Thickness	1/2" Laminate	Roller
1/4"	1/4" on 1/4"	80'
1/8"	1/8" on 3/8"	180'
1/32"	1/32" on 7/16"	328'

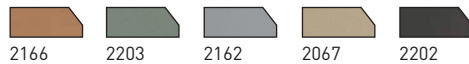

COLOURED CORK

Coloured cork: elastic linoleum surface material with jute backing for use with tacks. The surface is washable. Offered in a choice of 5 standard colours.

COLOURS

Thickness	1/2" Laminate	Roller
1/4"	1/4" on 1/4"	90'

FABRIC

VELCRO

PLAIN FELT

GROOVED FELT

Fabric, plain felt and Velcro are offered on 1/2" fiberboard.

Fabric: Selected from the Guilford of Maine or Vicor Innovatex charts.

Velcro and felt: Offered in black, other colours depending on availability.

COLOURS

surfaces

LAMINITE

Low Carbon steel for formability, Continuous Hot Dip Galvanized (CS) per ASTM A653. The steel sheet is first pre-coated with a Polyester resin based paint, then co-laminated with a "PET" (PolyEsTer) film; finally, a back coat with primer is finally applied to the other side to promote adhesion.

PRODUCT CHARACTERISTICS:

- PET film colaminated onto magnetic steel sheet in 2 possible finishes: smooth or embossed "orange peel".
- Colours: white or metallic. Other colours available by special order only.
- Specular luminance Gloss (60o) is optimized above 90 degrees.

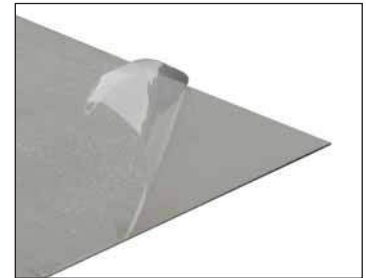

EXCELLENT INTRINSIC CHARACTERISTICS:

- Unique composite finish
- Exceptional durability
- Perfect adherence of film on metal
- Corrosion resistance
- Exceeds all industry standards.

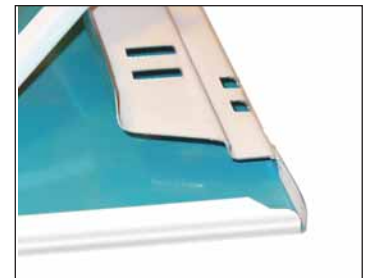

COLOURS

102

DOUBLE SURFACE

Series 8000 can be distinguished by its black vinyl decorative band that conceals the anchor screws. What's more, its moulding profile was designed to incorporate a horizontal sliding panel (series 8500)

on nylon wheels, for classrooms requiring a larger writing surface. Anodized aluminum moulding.

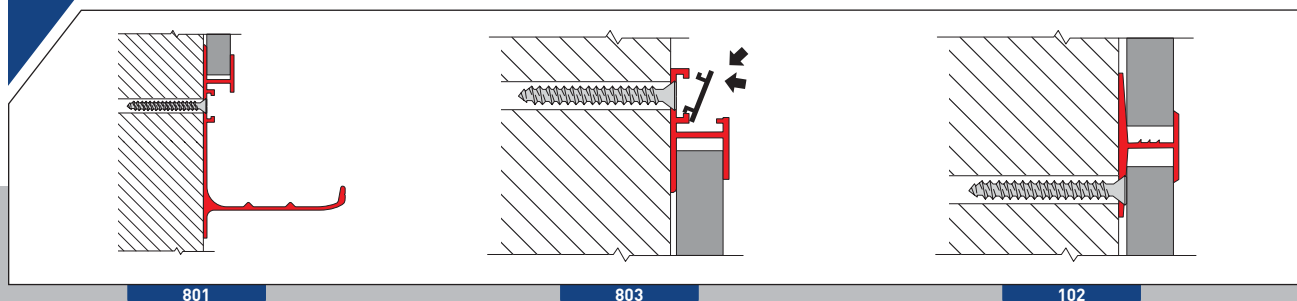

Sizes	
2' X 3'	4' X 10'

THE PORTABLE WRITING BOARD

Portable plastic dry-erase marker board. Facilitates classroom allocation. Available in 5 models (see illustrations), each with a white writing surface and black lines.

It also rolls up easily after use for safe storage in its individual packaging. The plastiportable adheres magnetically to all painted steel or porcelain surfaces. Then it's ready to be used!

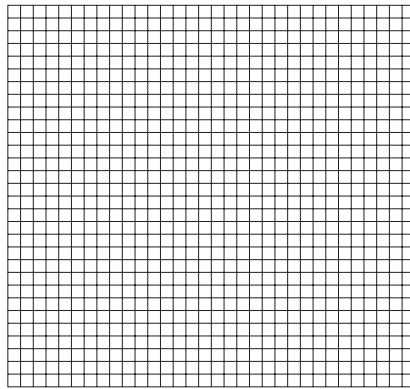

ABS plastic sheet, 0.030" thick. Specially treated in our workshops to prepare it for the application of writing film. Brush and 2 markers included.

The very lightweight plastiportable (total weight of 7 lbs) tucks easily under your arm. Simply unroll it from its individual protective tube and ready to lay out flat before hanging it wherever you like.

Easy to unroll and roll up again into its individual protective tube.

VERTICAL SLIDERS

This is one of our specialized models, just the thing for amphitheatres and laboratories. It includes one fixed panel and one (series 900) or two (series 910) sliding panels. The counterweight mechanism consists of ball-bearing pulleys and a steel cable. Its anodized aluminum jamb extrusions are solid and easy to maintain.

HORIZONTAL SLIDERS

Series 950 is the solution for maximizing writing and/or display surfaces. With its 3" aluminum frame, it also includes a slide system at its base and a nylon ball-bearing caster system at the top of the frame. The writing surfaces can be as diversified as

the imagination and basic choices allow. The sliding system can be doubled (Series 960), tripled (Series 970) or more, depending on your needs. Chalk rail included.

MOBILITY AND DUALITY

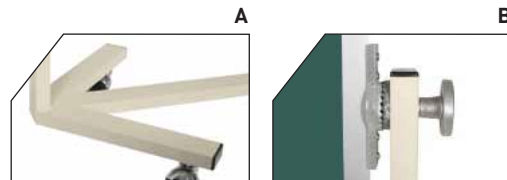

Series 555 provides a double surface as well as mobility owing to its caster system. Its tubular steel mounting gives it lasting sturdiness. A pivoting mechanism allows you to turn the board over rapidly and position it at the desired angle. This board can

be covered with any of the available surfaces (porcelain, lauzonite, laminate, cork, fabric and Velcro).

LUXURIOUS

Complete your conference room décor with a 710 or 711 model communication board. The result of industrial design research, the ingenious closing mechanism functions with horizontal strap hinges. These stylized, discrete hinges are made of solid alu-

minum. Practical, the upper moulding is designed to hold a pull down projection screen and a flip chart. A tray on the lower edge of the board holds and conceals erasers and markers.

711

Sizes

- 42" X 48"
- 42" X 60"
- 42" X 72"

Characteristics and available options on pages 27 and 28.

SOLID

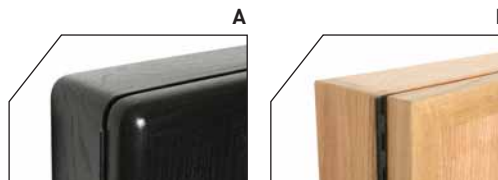

Add a touch of elegance to your conference room with a 712 or 713 model communication board. These top of the line boards are built in solid wood and are varnished in one of the 5 basic colours available. On request and with the help of a sample, we can give your board the same finish as your conference room furniture. These boards are fitted with piano hinges, an optional integrated projection screen and a marker tray.

High quality white porcelain steel covers the central panel. The boards have 2 side doors equipped with display panels, the left one with a flip chart.

Sizes

- 48" X 48"
- 48" X 60"
- 48" X 72"

Characteristics and available options on pages 27 and 28.

conference

ECONOMICAL

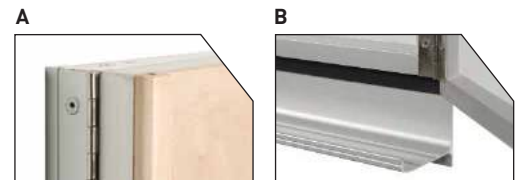

Equip your conference room with a Series 714 or 715 communication board. Offered at an affordable price, these boards can be distinguished by their slim profile: 1 1/2" when closed. The optional marker tray on the outside lower edge remains visible

when the doors are closed. These boards are fitted with piano hinges and anodized natural aluminum mouldings. Both pleasing to the eye, model 714 offers a wood veneer exterior finish, whereas model 715 has a laminated finish. Top quality white porcelain-on-steel covers the central panel. These boards have two doors with a flip chart on the left one. The doors can be covered with natural cork, coloured cork, fabric or a white magnetic surface.

Sizes

- 48" X 30" (1 door)
- 36" X 48"
- 48" X 48"
- 48" X 60"
- 48" X 72"

Characteristics and available options on pages 27 and 28.

POPULAR

These attractive boards are an excellent value, and are the most popular with our customers. Made of high quality melamine, they fit in perfectly with your conference room decor. The 717 model includes a built-in projection screen. These boards come in a range of five exterior finishes: light oak, black oak, maple, mahogany and cherry. On request, and for an additional supplement, we can give the board your

choice of finish. These boards are fitted with piano hinges. Top quality white porcelain-on-steel covers the central panel. The boards have 2 side doors each equipped with display panels, the left one with a flip chart.

conference

COMPLETE

To meet our customers' needs, we have combined the characteristics of models 714 and 716 to create model 718. A 2 1/4" deep black melamine box conceals the marker tray inside the board. The central panel is comprised of white porcelain-on-steel. These boards have two doors covered with

your choice of surface: natural cork, coloured cork, fabric, or white porcelain-on-steel. The left door has a flip chart. Both doors have a laminated exterior finish.

Sizes
